Course Coordinators: *Dr. Damián Zaitch (UU) and Dr. Stephanie Rap (UU)*
E-mails: d.zaitch@uu.nl and s.e.rap@uu.nl

This course offers an advanced training in qualitative and legal research methods and a platform to discuss methodological issues around own doctoral research projects. It combines modules run by staff from different criminological departments, seminars for discussing readings and research progress, and time to work and reflect on their own research projects. During the seminars, the emphasis will be on 'doing research': candidates will be supervised on small assignments linked to their own PhD research projects. Previous knowledge on qualitative methods is required.
